

Greetings InvestEd 2007 Attendees!

The InvestEd management team buys notebook computers to use at the event. We are selling the computers at our cost. We continue to work with Dell so that we are able to offer high-end notebooks at great prices. Our three-day usage of these computers does not affect Dell's computer warranty – it starts on August 19, 2007 when you pick-up your computer.

To take maximum advantage of technological advances, we have set the total price at **\$1050**. This price includes tax. This allows us to guarantee both the price AND the configuration.
